**Subject:** prep for Thursdays meeting -- Unimpaired Flows info

Hey Valentina and Bruce,

I thought you guys would like to read through these links Tom sent me. They regard unimpaired flows. All are quick informative reads. I'm going to print them and have copies ready at our Thursday meeting. We may not need them but they're helpful for me.

Les Grober from SWRCB gave the DSC Independent Science Board and update on both phases of the WQCP update in March 2012.

Here are summary notes from that update, see pages 4 and 5.

Here is the handout provided at that meeting.

Here is the DSC Independent Science Board's response to questions LG asked at the March 2012 meeting

Subject: Link to ISB letter to Les Grober on Unimpaired Flow approach

Letter to Les G. (I don't think there is an outgoing letter; it seems to have been based on the technical staff report and an oral meeting in maybe February):
